1. No refunds of entry or penning fees will be made if the show must be cancelled for any reason beyond the control of the Society. If your cattle herd is subject to a standstill period due to a TB reactor, please send confirmation from your vet and we will consider a refund of entry fees only. For illness or injury other than TB, we will consider a refund of entry fees only on receipt of a vets certificate.
2. The Society reserves the right to amalgamate or cancel any classes if there are insufficient entries. In the event of a class having to be cancelled, the entry fees will be returned. For the avoidance of doubt, if classes are amalgamated entry fees will not be returned.
3. Any competitor intending to object to any exhibit must notify the secretary in writing within one hour of the class having been judged with a deposit of £25.00, which will be returned if the protest is sustained, but if in the opinion of the Committee the objection is unreasonable, the deposit to be forfeited. The decision of the Committee shall be final and binding to all parties.
4. Ages will be taken as on the date of the show for animals and handlers unless otherwise stated.
5. The prescribed fee for each entry including penning fees must be paid to the Society before the closing date for classes.
6. A judge's decision shall be final.
7. Neither the Society nor any of its officers or servants will be responsible for anything that may happen to exhibitors, their servants or any other person, or their respective property or animals, or to any exhibit at the show, and it shall be considered a condition of entry that each exhibitor shall hold the Society blameless and that he shall be considered to indemnify the Society against any legal proceedings, claims or demands in respect thereof. Exhibitors acknowledge that they are taking part in a risk sport and agree to having achieved a level of competency. In addition, they agree that they understand it is their responsibility to insure their property, animals and livestock whilst on the Showground and hold full public liability insurance.
8. The Society will not tolerate the administration to show exhibits

of tranquillizers or other drugs which may in any way affect the performance of the animal in question to have the effect of making it behave in the show ring in a manner which is not natural.

The Society reserves the right to take any necessary samples. Any Person, Exhibitor or their representative who is found to have administered or permitted the administration of any such tranquillizer or drugs to any Show exhibit will be reported to the Council and referred to the appropriate Breed Society.

9. Any dispute or doubt arising on any questions connected with the Society shall be referred to the Chief Executive in the first instance, who may refer the matter to the Society's Chairman of Council or Chairman of the Livestock Committee as appropriate.
10. The Council shall have power to interpret these rules and the regulations above mentioned if there should be any ambiguity or difference of opinion concerning the purport or intention of any rule or regulation. The Council shall have power to deal with any matter not provided for in these rules. A full copy of the articles of association of the Society may be obtained from the secretary on request.
11. The Society has taken reasonable precautions to ensure the health and safety of everyone present at the show. Animals, however, can sometimes be unpredictable. For these measures to be effective, everyone must take all reasonable precautions to avoid or prevent accidents occurring and must act upon the instructions of officials and stewards.
12. Pregnant animals, where 90% or more of the gestation period has elapsed, may not be transported. In the case of cattle, if a live calf is born on the showground (whether prematurely or full term), animal welfare regulations do not allow its transportation for seven days after birth; exhibitors will have to bear any additional costs or damages which the Society may incur as a result.
13. Stewards reserve the right to reject any animal deemed to be unsafe.
14. Owners of cattle, sheep and goats need to comply with current legislative requirements and conditions from Defra concerning identity, passports and travel movements. For up to date

information, please contact your local Animal Health Office or check the Defra website www.gov.uk/defra.

Cattle

The Surrey Agricultural Society is pleased to announce that the 2019 Surrey County Show will be BVD free. BVD free status ensures that this devastating disease is not spread between cattle attending the Show and will stop the disease impacting on their health and future fertility.

BVD free means that all cattle (and calves) attending the Show must come from a herd that is fully accredited as BVD free or individually tested free of virus (antigen) whether or not they have been vaccinated, in accordance with CHecs rules (www.checs.co.uk).

Westpoint Veterinary Services (www.westpointfarmvets.co.uk), through their lab Biobest, will cover the first year of the annual membership costs of any herd who was not currently entered into a cattle health scheme and wanting to enter into a health scheme. In addition, they have very kindly offered subsidized PRMT for exhibitors attending the Surrey County Show. If you would like more information, please call Westpoint Veterinary Services on 01306 628086.

1. TB Pre-Movement Testing will be necessary for cattle coming to the Show. Please check the latest information on the DEFRA web site. A copy of any clear pre-movement TB test certificate should accompany each animal to the Show and will be checked by a steward.

2. All movements of cattle to and from the show must be recorded separately by the exhibitor in the cattle passport and be reported to the BCMS within 3 days. The Show will also record movements on and off the showground. All cattle should be accompanied by their passports or a certificate of registration. A steward will check all cattle documentation at the Show.
3. Cattle must originate from premises which are not under DEFRA restrictions for tuberculosis or brucellosis. They must have been the bona fide property of the exhibitor on his holding at least two calendar months prior to the show.
4. Animals which calve, or show evidence of calving, whilst at the showground must be placed in the approved isolation accommodation pending their removal from the showground. Where an animal calves at full term and the owner arranges for a blood sample and a vaginal swab to be taken and examined at an approved laboratory, and the Rose Bengal Plate Test and microscopical examination of a smear made from the vaginal swab are negative, the animal may return to the show lines at the discretion of the Show Secretary. Where an animal calves prematurely, or aborts, the onsite veterinary surgeon must be informed immediately. The appropriate precautions and procedures will be followed before the animal(s) can leave the showground.
5. Bulls over 10 months of age should be rung. All bull handlers must be aged 18 years and over and there must be two handlers for every bull shown.
6. Cattle must be tied up, and exhibitors shall provide their own ties.
7. Any artificial contrivance or device found on or proved to have been used on an animal at any time whilst that animal is in the Showground, either for preventing the flow of milk or for any other improper purpose will disqualify that animal from the competition and the instigator or the owner of the said animal may be prohibited from entering Stock in any future competition as the Society may see fit. The Society reserves the right to have all animals inspected by the Hon. Veterinary Officers, either prior to, during, or after judging.
8. Only the first prize winner from each class will be eligible to

compete for the beef or dairy championship. The reserve of the breed of the chosen champion will be eligible to compete for the reserve beef or dairy championship.

9. Cattle may automatically transfer from In-calf to In-milk classes and vice versa.
10. No Warbled cattle will be allowed into the show without a completed declaration of treatment (form C) and this form can be obtained from the Local Authority or Defra.
11. Cattle belonging to herds with CheCS-accredited must ensure that they and their cattle comply with the Scheme rules concerning attendance at shows.
12. Substitutions: in any class, exhibitors must provide full details of animals to be exhibited by the closing date of entries into the Show Guide and the Society reserves the right to refuse acceptance of any entry where the details given are incomplete. Substitution of animals in the cattle section will be allowed after the closing date at the discretion of the Show Office. The only exception to this is in the case of dairy classes, where changes may be made if last minute calving has/has not occurred. In this case, the Breed Steward must be informed prior to judging commences.
13. Transportation details should be included on your entry form. If this is not possible please furnish these details to your Steward on arrival for our records.
14. Regarding the milking parlour, The Milk and Dairies (General) Regulations must be observed at all times, especially:
